

Cisco MultiDomain Solution Installation Service

SERVICE OVERVIEW

- Create documents needed for the design and deployment for the multi-domain-mentored install
- Installation and configuration of the 3x Cisco DNA-C cluster and the Cisco ISE application
- Integration of Cisco DNA-C and Cisco ISE
- Integrating Cisco ISE with LDAP server
- Deploy and configure the SDA control-plane node, border node, and the fabric-edge switches
- Discovering (PnP) and automating the underlay devices for the fabric
- Overlay automation configuration using DNA-C on fabric device
- Deploying the Cisco SD-WAN vManage, vSmart, and vBond controller
- Deploying the Cisco SD-WAN overlay fabric for up to 10 sites
- Integrating the Cisco SD-WAN edge routers with the Cisco SD-access fabric

HYBRID DELIVERY MODEL FOR COST OPTIMIZATION

- Up to 15-days of on-site/remote engineer support for design and implementation
- Dedicated project management
- Deploying the Cisco APIC controller for ACI
- Deploying the ACI spine and leaf architecture for 2 spines and 6 leaves
- Integrating the Cisco SD-access control plane with the Cisco ACI border leaves:
 - L3-Out integration

Cisco MultiDomain Solution Installation Service

HYBRID DELIVERY MODEL FOR COST OPTIMIZATION

- Integrating the Cisco ISE and Cisco APIC for complete policy integration between SGTs and EPG
- Integrating Cisco SD-WAN cEdge with Cisco ACI border leaves for control- and data-plane integration
- Delivering the following use cases:
 - Complete control-plane visibility from the access to the DC over the WAN
 - End-to-end policy application across the access, WAN, and DC
- Knowledge-transfer sessions and handover to customer including:
 - Use-case validation from customer
 - Complete setup and configuration

WHAT IS NOT COVERED

- Racking and stacking of wired, wireless network or servers, appliances, etc.
- Any configuration on devices not mentioned in the scope

WHY ENTERONE

EnterOne engineers have delivered many deployments, with consistently high customer satisfaction scores across all of Cisco's architectural solutions. EnterOne's 9-step professional blueprint is the methodology used to drive successful projects to completion. EnterOne is a Cisco MINT and DSI Partner and a Platinum Learning Partner engaged with driving Cisco learning and deployment services for highly integrated solutions.
